Finalized Style Definitions

October 29, 2026

Scope & Assumptions

📄 Export-ready reference for finalized shape, connector, swimlane, conditional-formatting, and export requirements.

Topic	Assumption
Definitions	Values are authoritative
Rendering	Styles apply consistently
Export	Editable output retained

Preserve exact values

No unapproved substitutions

Export remains editable

Shape Styles

🔷 Finalized fill, border, stroke, and text values for every shape type.

Shape	Fill	Border	Stroke	Text
Start	#9bb89d	#4c535d	3 px solid	#17324d
Final	#4c535d	#4c535d	3 px solid	#ffffff
Manual	#d6e9ff	#005fcc	3 px solid	#17324d
Manual Review	#d6e9ff	#005fcc	3 px solid	#17324d
Automated	#cdcddb	#553f6a	3 px solid	#17324d
System Decision	#cdcddb	#553f6a	3 px solid	#17324d
TBD	#f6b6a6	#b83280	3 px solid	#17324d
Storage	#ffffff	#3a414a	3 px solid	#17324d
Exception Path /	transparent	#4c535d	3 px dashed	#17324d
Termination	#4c535d	#4c535d	3 px solid	#ffffff

Shape	Fill	Border	Stroke	Text
Manual — Unconfirmed	#feeb89	#005fcc	4 px solid	#17324d
Automated — Unconfirmed	#feeb89	#553f6a	4 px solid	#17324d

Use exact hex values

Keep stroke names exact

Validate text contrast

Connectors & Lanes

Connector	Line
Main Flow	#4c535d, 3 px solid
Exception Path	#4c535d, 3 px dashed
Loop Back	#4c535d, 3 px dashed

Element	Definition
Header	#007aff
Header text	#ffffff
Border	1 px
Lane 1 fill	#fdf5f5
Lane 2 fill	#f5fbf7
Lane 3 fill	#f5f9fd

Use consistent lane hierarchy

Keep body fills subtle

Rules, Key & Export

Rule	Style mapping	Operational definition
ShapeType	Use the exact Finalized Style Definitions entry	Start, Final, Manual, Manual Review, Automated, System Decision, TBD, Storage, Exception Path / Loop Back, and Termination retain their documented fill, border, stroke, and text colors.
Border width	3 px standard; 4 px unconfirmed	Every shape border is 3 px except Manual — Unconfirmed and Automated — Unconfirmed, which use 4 px solid borders.
LineType	Use the exact Connector Definitions entry	Main Flow is #4c535d, 3 px solid. Exception Path and Loop Back are #4c535d, 3 px dashed.
Status	Apply overlay without changing base identity	Unconfirmed uses amber fill while preserving the ShapeType border color; Manual — Unconfirmed and Automated — Unconfirmed use 4 px solid borders.
Swimlanes	Use lane-specific structure and fills	Header #007aff with white text, 1 px border; Lane 1 #fdf5f5, Lane 2 #f5fbf7, Lane 3 #f5f9fd.
Key / legend	Keep editable and representative	Use representative shapes, exact styles and text, and retain an editable key rather than a flattened image.
Export	Preserve editable output	Validate rendering before export; do not substitute unapproved shapes, colors, stroke names, or text values.

Requirement	Note
Exact selected shapes	Use representative shapes
Exact styles and text	Apply listed hex values exactly
Editable key	Retain editability

Check	Status
Export reviewed	Verified
